

This workshop will explore the core principles and essential pillars in Dr. Montessori's pedagogical approach: *The Prepared Environment, The Child and The Guide*. It establishes a clear framework for Guides and Assistants to implement this approach with a deeper understanding, clarity, confidence and joy.

It is designed to equip participants with tools and strategies to help maneuver the first months of the school year, which at times, can be overwhelming and challenging.

An invaluable workshop for new Guides, Assistants and Administrators!

The Beginning of Everything

with Gilda Bonnet

Gilda Bonnet graduated from the first AMI course

in Puerto Rico in 1988. She has more than thirty-five years' experience directing a Montessori class for children between the ages of 3 and 6 years, including a model school she owned and operated in Puerto Rico. She later led the model classroom for the first AMI training course in Gerona, Spain. In 2001, Gilda completed her Auxiliary Trainer course, and joined the staff at the MTCBC in Vancouver, Canada, becoming its Course Assistant for a number of years. Recently, Gilda retired as the Guide and Head of School for the MTCBC Lab School, the Montessori Children's Community. She is an AMI Examiner and Consultant.
